Student Context

Our Lady of La Vang School enrols students from the age of 5 to the completion of schooling with intellectual and developmental disabilities. Many students have a range of additional complex disorders, including Autism, Down Syndrome, and extensive medical needs, which require a different approach to teaching and learning. We offer an integrated, developmentally appropriate curriculum encompassing the Australian Curriculum, including the General Capabilities, the ABLES Curriculum.

Each student has a Personalised Plan for Learning (PPL), which is developed and reviewed each semester in collaboration with students, their families and caregivers. The plan is structured around several domains that contribute to a successful post-school life, including communication, social skills, independent living skills, regulation skills and, for students in their senior years, work education.

Our approach to learning is informed by the characteristics of our students who typically exhibit a wide variation of cognitive development and communicative abilities (including delayed or absent speech), significant impairments in communication and socialisation, limited repetitive patterns of interest and activity; unique, complex and challenging behaviours and wide disparity between developmental and chronological ages. Various care plans are used when supporting many of our students including:

- Behaviour Plans
- Continence Care Plans
- Health Care Plans
- Manual Handling Care Plans
- Oral, Eating and Drinking Care Plan
- Toilet Care and Learning Care Plans
- Transfer and Positioning Care Plans
- Transport Plans
